NEW STAMPING ON OUR CORPKIT PRODUCTS

We now have the ability to stamp three different ways:

- *Horizontally
- *Vertical sideways
- *Vertical straight

This gives our Corpkit products 2 additional stamping options. On our Thriftkit, we have removed the label holder on the spine and now offer the same different styles of stamping that we offer with the Corpkit. If you still like the re-usable label holder on our Thriftkit, we still have that style kit too.

Loaded with new products

NEW SLIPCASE WITH DRAWER

We have added our new slipcase with a drawer to hold one or two corporate seals. If the slipcase is too high for your shelf, we have engraved a brass plate with the entity name on it and affixed it to the top of the slipcase so you can put it on it's spine on the shelf.

SECURITY PAPER

Corpkit now stocks security paper for your use on your most sensitive Documents. Similar to the technology used on the Corpkit® Genuine Stock certificates, when you photocopy any documents printed on this paper, "Void if Copied" will appear on the copy. Available in Green or Blue tint!
